

Grupo Security to distribute dividend of CH\$5.5 per share

October 7, 2021

At a meeting held today, the Board of Grupo Security agreed to pay a total dividend of CH \$5.5 per share, charged to profit for the year.

The Group has performed well this year, reporting profit of MCH \$40,542 for the first half of the year. This figure is 134% above the first half of last year when profit reached MCH \$17,328. Meanwhile, mobile LTM profit was MCH \$88,361, an all-time high for the Group.

As explained by the Group's CEO, Renato Peñafiel, "the results obtained are attributable to a strong performance by the Bank, which has increased profit despite higher risk levels and provisions, and by the Life Insurance Company, which boosted profit thanks to improved returns on its investment portfolio and leads us to anticipate an unusual annual result above traditional earnings levels."
